Cornwall People First
Department of Works and Pensions**

What we talked about

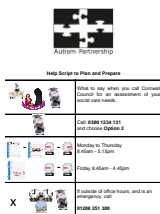

The new Cornwall Autism Strategy

Will our list of actions help the strategy ?
We need to check this

Fundraising activities will be for simple projects not for the strategy

More scripts need to be designed to help people access services
We will investigate Universities and colleges helping

Caroline suggested it would be helpful for commissioners to have up to date training in communication styles

What we talked about

CAP chair and co-chair positions

The working group will be thinking about the roles and about who should be members of the partnership

Students from Falmouth University will be working to create a technical product for Autistic People – this is called the Launch Pad Project

Cornwall council will be employing more people to help with the transition from Autistic child to Autistic adult

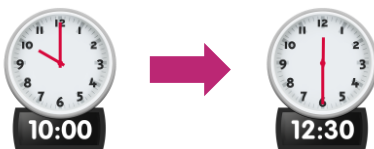

We look forward to hearing more about Cornwall Council awareness training
