There are concerns that benefits may be stopped when things in your life change.

Tasha Milton from the DWP couldn't attend but said there are specialist advisors for people with a learning disability. We will invite her to another meeting.

Some people couldn't go to Blue Light Day because there wasn't any transport to get them there.

Colin Gameson and Shelagh Mitchell will talk about this at the Blue Light Planning meeting.

It may be possible for service users to 1Qshare transport next year

A Carer said the Lyndhurst Day Centre is closing 2 days a week. The Board did not know this.

Tina Sandford will feed this back. A meeting will be set up with families soon. We said communication was important

People are still confused about applying for bus passes.

Doctors charge to sign the form  
Social Workers do not

Nobody was sure why some passes are renewed for different times.

We can't find an Easy Read application form. Stuart Cohen will check.

Sam Edwards from NHS Kernow talked about the Transforming Care Project.

He worked with self-advocates to write charters for service users and carers.

This is a way to co-produce changes in services or new policies

The Board agreed that it will do more co-production.

Smaller groups may be needed to work on topics.
